Profile

Highly motivated software engineer with Two (2) years of experience in Frontend Development and technical support. Proven track record of developing interactive web applications and optimizing systems for efficiency.

Employment History

Frontend Engineer, Grape Technology, Benin City

JANUARY 2018 — AUGUST 2023

- Developed and architected front-end systems using ReactJS.
- Documented all relevant processes, requirements, and plans.
- Handled API integration and ensured cross-browser support while following ReactJS programming practices.
- Wrote reusable, testable, and efficient API code using NestJS, TypeScript, and GraphQL.
- Successfully completed full redesigns and optimization of clients' existing websites, resulting in improved user interfaces and enhanced user experiences.
- Implemented a mobile-first approach for clients' existing websites.

TECHNICAL SUPPORT SPECIALIST, University of Lagos Holding Company (UniHOLD), Lagos

JANUARY 2017 — JANUARY 2018

- Managed 6 subsidiaries, ensuring systems were up-to-date and addressing security vulnerabilities for servers and workstations.
- Administered QuickBooks & Sage ERP solutions for accounting and operational purposes.
- Reduced IT operational and capital expenditures by identifying root causes and recommending cost-effective equipment and services.
- Provided on-site technical support and troubleshooting for technical issues.
- Completed full redesigns of existing websites to create interactive user interfaces and enhance user experiences.

Full Stack Engineer, Adexfe System Limited, Lagos

FEBRUARY 2016 — MARCH 2017

- Developed and deployed web applications written in Cold Fusion & AWAf (Adexfe Web Application Framework).
- Managed various API integrations and ensured cross-browser support while adhering to AWAf programming practices.
- Optimized bundle sizes of front-end assets using WebPack, ESBuild, and Babel.

Education

- Bachelor of Arts, Biblical Theology
 - All Nations for Christ Bible Institute, Benin City
 - January 2019 – December 2022
- National Diploma, Computer Science
 - Yaba College of Technology, Lagos
 - September 2013 - February 2017
